graduation. registered by
associations.

A person is lying down, receiving a facial treatment. A practitioner wearing pink gloves is using a long, thin needle to perform a procedure on the person's face. The background is slightly blurred, showing a clinical or spa setting.

Medika Dermal Institute provides aesthetic training courses for individuals who wish to learn and develop their skills, knowledge, and experience in non-surgical aesthetic treatments.

We are committed to providing the best training available and through our ongoing research, develop quality, in-depth nonbrand specific training courses

Our digital platform is designed for professionals to learn in-depth information and technique right from their own home at their own pace or in our virtual classes.

We have Hybrid style training options also available. We provide ongoing support to our attendees. If you are looking for self-care machines and training we have options available.

Testimonials

" I took a micro-needling course with Lurinda this past weekend and I highly recommend her courses! I enjoyed the theory was offered online it helped with my schedule very much. The practical was also very thorough- she is very knowledgeable and passionate about the industry. Cannot wait to take and send staff for more courses in the future. Thank you for the business advice as well. "

Jill MacDonald

" Loved taking the micro-needling course with Lurinda! would definitely recommend. "

Kaylee Langor

" I loved the retail training, thank you for the insight on the skin concerns, I loved the dermabrasion and laser course, amazing, and my machine was FREE and works perfectly! "

Mary-ann Cmor
